ANDRÉ MARQUES

SOFTWARE DEVELOPER

Over the past three years, I have dedicated myself to both developing software and teaching it.
I thought over 200 students at Code for all_ (ex-<Academia de Código_>) while exploring the dephts of Java and JavaScript

TECHNOLOGIES

- JavaScript | nodeJS | React
- Java
- HTML | CSS | tailwind | bootstrap
- Hibernate
- Spring
- mySQL | postgreSQL
- git | github | gitlab
- jUNIT | mockito | jest

EDUCATION

PROGRAMMING BOOTCAMP

<Academia de Código_>
May - Aug 2021

CERTIFICATION

JAVA 8 SE DEVELOPER

Oracle

LANGUAGE

English
Portuguese

EXPERIENCE

SOFTWARE DEVELOPER

Code for All_ (previously <Academia de Código_>)
2021 - Present

LEAD PROGRAMMING TEACHER

Code for All_ (previously <Academia de Código_>)
2021-Present

PROJECTS

INTERNAL MANAGEMENT PLATFORM
Fullstack app for management of both employees and students
Technologies: React, Redux, NodeJS, Hapi, knex, objection, postgreSQL, sqlite, jest, cypress, bootstrap, styled-components

APPLICATION FOR SLIDES CREATION
An application for accelerated content creation
It transforms markdown files into interactive slide presentations for deployment through AWS, while also enhancing the markdown language with additional features.
Technologies: JavaScript, Node.js, CSS, Markdown, esbuild

FULLSTACK-ONLINE COURSE
A 6 month course, there I developed all the exercises for students, ranging from crafting their own Java Collection API to implementing their personalized FTP protocol server and REST APIs.
Technologies: Java, Hibernate, Spring, junit, mockito, mysql, reflection, tomcat

JAVASCRIPT CORP COURSE
A JS course tailored for companies to facilitate the transition of developers from other programming languages to JavaScript.

<ACADEMIA DE CÓDIGO_> BOOTCAMP
A comprehensive in-person programming course designed for individuals aspiring to become programmers in 14-weeks.
